2.11 We will use all reasonable endeavours to correct any reported technical faults in the Service as soon as reasonably practicable. However, we do not give any guarantees as to performance of the Service or any undertakings that the Service will be continuously available or free of faults, as authorisation process in some cases includes participation of third parties, such as Card Schemes and Card Issuers, which are not under our control.

2.12 Occasionally we may:

- i) for operational reasons, update the technical specification of the Service and/or update the manuals or documents related to the Service; or
- ii) require Client to follow instructions which we believe are necessary for reasons of security or quality; or

Authorisations or payouts may also be delayed due to compliance with obligations under applicable legislation or Regulations, including if we suspect that the transaction involves fraud or illegal or non-acceptable activities. In the event that we refuse to execute a transaction or payment order, Client will be notified, unless it is unlawful for us to do so or would compromise reasonable security measures.

2.14 Clients with specific businesses, as provided by the Rules of the Card Schemes may be eligible for Pre-authorisation transactions. Such transactions will be available to Clients after our explicit approval for each Client. We have full discretion in the assessment of Client's application for Pre-authorisation transactions and may refuse this part of the Service to a Client or stop offering with immediate effect this type of Service for security or compliance reasons, for which we shall not be liable to pay any compensation to the Client.

3.1 Funding of Business accounts with amounts due by us to Client from acquiring services:

i) We shall pay to Client the amounts collected via the Service and due to Client, by issuing electronic money as per value of the amounts collected via the Service and due to Client, subject to all terms and conditions of this Agreement. In certain cases, upon explicit consent between the Parties, we shall transfer the amounts collected via the Service and due to Client to a bank account of Client, preliminarily approved by us.

ii) The amounts collected by the Service shall become due to Client and shall be paid by us to Client's account for e-money via issuing of electronic money in the following timeframes:

(a) In case of transactions via the myPOS Online Acceptance Features - the Business Day of authorisation of the transaction by the Card Issuer which is usually the same day of the transaction;

(b) In case of transactions via myPOS Service via payment card of the Card Schemes - the Business Day of authorisation of the transaction by the Card Issuer, which is usually the same day of the transaction.

iii) In case of Pre-authorisation transaction, the amount of the Pre-authorisation operation is not received by us and is not credited to Client's account until due completion of the Pre-authorisation transaction in compliance with the Rules of the Card Schemes and our requirements. Client is obliged to perform a completion of the Pre-authorisation transaction, by confirming the transactions for the full or partial amount within 90 days from the date of the Pre-authorisation transaction, after which the amounts collected via the Service will be credited to Client's account. In case Client does not complete the Pre-Authorisation transaction within the period specified above or cancels the Pre-authorisation transaction ("Cancellation of Pre-authorisation") the amount of this transaction shall not be credited to Client's account and Client will be charged with a fee for the cancellation, as provided in the Tariff.

iv) The amounts due by us to Client, in exchange of which we shall issue electronic money for the Client, are calculated in the following way: The amount received by us from acquiring or other payment services is decreased with the following amounts due by Client to us:

v) Amounts, collected via the Services, which are withheld by us as Reserve or as Hold/Pending under this Agreement or other Agreements or for compliance with laws or Regulations, are not yet due for payment from us to Client, until the reason for withholding is rectified and such amounts represent conditional obligations of ours with regard to Client. Such amounts are not considered as funds received by us in exchange of electronic money, therefore, they are not electronic money or available balance in Client's account for e-money or a claim of Client towards us until the reason for withholding or Reserve is rectified and these amounts are credit to Client's account for e-money. Client shall be able to see the amounts withheld by us in the Online Profile, in the Reserve account, as Reserve or Hold/Pending, where such amounts are displayed only for information purposes and not as e-money balance. We shall inform Client on the reasons for withholding of amounts, unless it is unlawful for us to inform Client.

vi) Amounts of Pre-authorisation transactions are not credited to Client's account until due completion of the Pre-authorisation transaction and settlement to us, according to the Rules of the Card Schemes. 3.2 Funding via credit transfer: Client can order a credit transfer from a bank account to Client's myPOS Account for e-money provided by us. Upon receipt of the amount of the transfer by us, we will issue electronic money in the same amount as the amount of the transfer on the same Business Day as the date of receipt of the funds by us. If the credit transfer is in different currency from the currency of the myPOS account we shall apply the currency exchange rate for day on which the transfer is received by us, which rate may be checked on the Website, and we shall issue electronic money in the same currency of the myPOS Account in equivalent amount to the credit transfer. We are not responsible for and do not control when we will receive the funds from Client's payment services provider and whether the payment services provider of Client or correspondent banks will charge Client fees for the transfer and will transfer the full amount to us. Client will be notified through information in the Online Profile in the balance and transaction history of the amount of issued money and date of credit operation. In relation to the compliance with the rules of the applicable legislation, for example Regulation (EU) 260/2012, we may reject and return to the payer certain kinds of restricted payment transfers. If Client has any doubts whether a specific transfer is allowed, Client may call our support team before Client or the payer sends the transfer to Client's account.

3.3 In order to receive the amount in the account, Client must provide to its payer the correct Account number of Client and/or correct IBAN, or correct sort-code and account number if applicable, as well as other beneficiary account details, as stated in the Online Profile. The limits for funding via bank transfer are set out in the Online Profile.

3.4 Client agrees that we may impose different limitations on amounts of issued e-money, or special requirements, or not accept bank transfer from certain banks, at our discretion, if this is justified by reason of our legitimate interests in reducing our risk exposure or in order to comply with any legal requirement under any legislation which may be introduced in the future.

3.5 The credit value date for the payee's account (Client's account) and the amount of the funding transactions shall be available no later than the Business Day on which the amount of the funding transaction is credited to our account.

Therefore, in such cases we do not guarantee the acceptance of any particular funding method, and may make changes or discontinue the acceptance of any particular funding method by giving Client prior notice as provided by the applicable law.

In order to receive money from a bank account (inbound money transfer), Client must provide to the payer the correct number of Client's account and/or correct IBAN, as well as other beneficiary account details, as stated in the Online Profile.

Client can send a payment request or a link for payment via the Service, which has an expiry date and amount set by the Client, and if the recipient agrees to pay to the Client, the payment will be processed as a card-not present transaction on a secured platform myPOS. Client understands and agrees that a sent link or request for payment is not a promise or obligation on our behalf to debit the account or card of the recipient and that the recipient of that link or request has to agree, open the link and make an e-commerce transaction with a valid card prior to the expiry date of the payment request. We are not liable for late payments or refusals to pay via link or requests for payments.

4. Outbound money transfers:

4.1 Client may submit payment orders to send money to payee with myPOS Account online via Client's Online Profile or via the Mobile app (referred to as "Send money"), or to payee with payment account, opened with a third-party payment service provider. 4.2 Receipt of payment order and Irrevocability: By clicking the button "Confirm" or "Yes" in the Online Profile or in the Mobile app, after entry of an OTP (one time password) or a secured code for confirmation of the payment order we receive immediately the payment order and it is the time of receipt of the payment order executed by the Client. By doing so Client confirms to make an irrevocable payment order to us to debit Client's account with the amount of the transfer, and all applicable fees and execute a payment. The confirmed order received by us cannot be revoked by Client. Payment orders received by us on a day, which is not Business Day, shall be deemed as received by us on the first following Business Day.

4.3 We shall execute the authorised payment order of Client, if Client has enough balance in the designated account from which the payment order is being placed transactions to cover the amount of the transfer and the applicable fees. We shall refuse to execute a specific transaction if there is not enough balance of e-money in the respective currency, or we reasonably believe that the payment order is made by unauthorised person or transaction is fraudulent, illegal or in breach of the present Agreement or any law or regulation.

4.4 Payment transactions initiated by or through the payee.

We shall execute a payment transaction initiated by or through the payee in accordance with the consent of Client given to the payment service provider of the payee. In cases where the amount of the transaction is not known at the moment of providing the consent, Client may be provided with an option to agree to the blocking of a specific amount for the purposes of the execution of the transaction in question. In case Client has agreed to said blocking, we shall unblock the amount at the moment of the initiation by or through the payee.

However, we may amend the Tariff as allowed by this Agreement and the law, and this will not suspend or terminate the Standing order automatically and the new fees will apply for the Standing order as of the moment of their entry into force. The funds in the account to be debited for execution of the Standing order have to be sufficient to cover the amount to be transferred and our applicable fees. In case the funds in the account to be debited for execution of the Standing order are not enough to cover the amount of the transfer and/or the applicable fees, we shall perform automatic currency conversion at the currency exchange rate for the date of the conversion with the available funds in other accounts in order to complete the transfer. We shall not execute a specific transaction if there are not enough funds in Client's account, for which we shall not be liable for whatsoever damages or compensations.

4.8 Client is entitled to withdraw a Standing order before the expiry date has come into effect via Client's Online Profile with entry of valid OTP and as provided by the Service. To revoke a payment that is due to be made under a standing order, Client must do so at latest by the end of the Business Day preceding when the payment is due to be made. Client understands and agrees that all payments executed by us according to the Standing order until the date of the withdrawal or expiry date are irrevocable and correctly executed by us and we shall not be liable for unauthorised transactions.

4.9 Unless Client informs us that a payment order has been unauthorised or incorrectly executed within the timeframes set out in this Agreement, Client acknowledges and agrees that a payment order, including from a Standing order, has been executed correctly by us, even if Client has submitted a payment order with incorrect data, and as a result of this, the money transfer has not been successful and/or has been received by wrong payee and/or was returned to us, as a result of which Client has to cover the charges for the return, reversal or cancellation of incorrect payment order.

4.10 International transfer (non SEPA transfers): Client can make via the Service outbound money transfers from Client's account and balances to any bank account, except for bank accounts in countries or of persons or entities, which are not allowed by the Service. SEPA comprises the countries and territories described above in the List of SEPA countries and territories.

5.2.2 The client understands and agrees that in order to execute payments by SEPA Direct Debit Service:

- (a) The payee and the payee's payment service provider must use the SEPA Direct Debit Core Scheme.

(d) Client understands and agrees that the Mandate given by Client to the payee shall remain with the payee. Client agrees that the payee shall take over the authorisation data and enter any additional details in the data set of the instruction for the

Collection of SEPA direct debit such as the amounts to be collected.

(1) Client acknowledges that the payee shall send the instruction for Collection of the SEPA direct debit to us through the payment service provider of the payee. This instruction shall also represent Client's authorisation given to us to perform the respective SEPA direct debit and collect the funds specified in the Collection from Client's Account.

(2) We reserve our right to approve or decline the form of the mandate and/or when necessary to request from Client or from the payment service provider of the payee a verification of the Mandate given by Client to the payee in order to protect Client's interests from any attempt for fraud.

5.2.5 Collection authorisation as a SEPA Direct Debit Mandate. Client understands and agrees that by providing the Mandate to the payee Client authorises the payee to request Collection of payments from Client's Account held with us under SEPA direct debit and at the same time thereby instructs us upon receipt of a Collection by us to pay the direct debit by withdrawing the specified funds from Client's Account and transfer them to the payment service provider of the payee.

(3) Client must submit the Refusal to us at least two Business Days before the due date of the payment transaction under the Mandate so that we may effectively reject the Collection under the refused Mandate/payment.

(b) Client is entitled to limit any payment under SEPA Direct Debit Service in terms of frequency and/or amounts by sending us an instruction via the registered email address of Client or in another manner as allowed by the Service. Client understands that the limitation has to be communicated to us at least two Business Days before the due date of the payment under specific SEPA direct debit mandate otherwise we shall not apply the limitation to the specific payment transaction/s. Client is responsible to communicate the limitation to the payee as we are not obliged to notify the payee. By receiving instruction for limitation, we shall perform the collection of SEPA direct debit in accordance with the limits set in the instruction.

5.2.7 Blocking payments under SEPA direct debit. Client is entitled at any time during the use of the myPOS Direct Debit Services to block its Account as allowed by the Service for any Collections of SEPA direct debit received from payees of the Client. We shall not pay partial amounts under SEPA direct debit.

(3) In cases where Client's Account is blocked by us, including, but not limited in cases of pending identification or verification of the Client, Client acknowledges and agrees that we shall not debit Client's Account and shall keep the debit entry as pending for a period of 3 (three) Business Days as of the due date after which we shall return the collection for payment to the payee if the reason for blocking the Account is not rectified.

1. We shall immediately inform Client without delay of non-execution or rejection, or return of the Collection for payment under SEPA direct debit via email sent to the registered email address of Client or in another manner as provided by the Service. We shall, if possible, state the reasons and indicate ways in which errors that led to the non-execution, cancellation or refusal can be rectified. Client is able to view all its payments under SEPA Direct Debit Service in its Online Profile provided by us.

2. We shall charge Client with a fee set out in the "Tariff" when informing Client of a rejection to perform a Collection of payment under a duly authorised SEPA direct debit due to a lack of funds provided by the Client.

If Client wishes to further use SEPA direct debit Service regarding this particular payee we shall require Client to prepare and provide a

new Mandate for the payee.

(a) Refund for an authorised payment

(1) In case of a payment initiated by a payee under SEPA Direct Debit Service as a result of which Client's Account has been debited, Client is entitled to request from us a Refund of the amount debited without being required to provide us any reasons or explanation to its request. Such request for Refund must be made within eight weeks starting from the date on which Client's Account was debited. We shall restore the balance of Client's Account to what it would have been before the payment under the SEPA Direct Debit.

(2) Client agrees that the right to a Refund under the paragraph above shall be precluded as soon as the payment according to the Collection for SEPA direct debit has been explicitly approved by Client directly to us.

(c) Refund for non-executed or incorrectly executed authorised payments

(1) If an authorised payment is not executed or not executed correctly, Client is entitled to request us to refund the amount of the payment under the SEPA direct debit in full without delay insofar as the payment was executed incorrectly. (3) Client acknowledges and agree that our liability shall be precluded if we prove to Client that the full amount of the payment reached the payee's payment service provider in due time or if the payment was executed in conformity with the incorrect unique identifier of the payee provided by the payee.

(d) Our ability to provide SEPA direct debits may be limited or disabled for some time, for reasons beyond our control, as we participate in the payment system as indirect participant and rely on banks, which are direct participants. We shall inform Client in reasonable time and will try to find a solution and resolve the matter as practically as possible, however, we shall not be liable for any damages caused to Client due to ceasing of our services for SEPA direct debit for reasons beyond our control.

6.5.5. Whenever Client uses the Card in order to make a purchase on the internet from a 3D-enabled Merchant Client will be presented with an electronic receipt and the OTP code will be sent automatically to the mobile phone of the Client, to which the Card is linked. If Client does not receive the OTP, Client has to check if the mobile number, registered and linked to the Card is correct and is the one actually being used, and contact us in case of need.

6.5.7. If Client changes any linked Mobile Phone Number/s, email or any of the contact details via in which Client receives OTP codes, Client must notify us immediately to ensure that our records are up to date and we are able to send the OTP. immediately.

6.5.9. Client is responsible for all instructions sent using the OTP codes. Client is responsible for ensuring for keeping the OTP codes secure and confidential.

6.5.10. **Availability of 3D Secure.** We try to give a complete service at all times but do not guarantee it. We will not be responsible to Client for any unavailability of 3D Secure or any malfunction thereof where any failure on our part is due to:

7. Refusal, reversal of unauthorised transaction and reversal of incorrect payment orders:

7.1 If we refuse to execute a payment order, the refusal and, if possible, the reasons for it as well as the procedure for correcting any factual mistakes that led to the refusal shall be notified to Client, unless prohibited by other relevant EU or national legislation. We shall provide or make available the notification to Client via email or via the Online Profile at the earliest opportunity. We may charge a fee for providing additional information for such a notification if the refusal is reasonably justified.

7.2 We will assist Client to a reasonable extent for reversing the transaction executed under incorrect payment order as required by EU and applicable national law. In case of incorrect payment order, such as wrong account identifier, wrong name, wrong BIC, wrong name of bank of the payee, wrong amount, or other incorrect data, submitted by Client, we will make reasonable efforts to recover Client funds, for which we may charge Client a fee.

Where the transaction is not related to a Direct Debit, as defined in Regulation 260/2012, we shall only restore the full amount under the following conditions:

- i. the amount of the transaction was not shown or known to Client at the moment of authorizing the transaction;
- ii. the amount of the transaction is higher than the amount Client could reasonably have expected to be charged by the payee taking into account circumstances such as Client's previous spending patterns and the circumstances of the case. This shall not apply to cases where the amount of the transaction differs due to exchange of currency costs;
- iii. Deadline. Client may demand restoring the amount of the transaction within eight weeks as of the date of the debiting of its account by providing also documents evidencing the circumstances described above;

When the consent for the transaction was made directly before us and, if applicable, the payee or its payment service provider had provided Client with information about the transaction at least four weeks before its execution Client shall not be entitled

to request restoring of the transaction initiated by or through the payee.

7.4 In case of any unauthorized, incorrect or delayed transaction we shall conduct a procedure for proving authentic and correct execution of payment transaction and if, as a result of this procedure, myPOS is found to be responsible, we shall reverse the operation and return the amount to Client's account, within the deadline provided in the law. We will not be responsible for refunding Client for an incorrect, non-executed or delayed transaction if we can prove that the recipient's bank received the payment.

7.5 Chargebacks, Reversals, Refunds or Claims, related to the acquiring services:

7.5.1 Client acknowledges and agrees that Client may become liable to us for the full or partial amount of any payment, received by us or Client from the Service plus any fees or charges if the payment is later invalidated for any reason, including but not limited to chargeback or reversal of a payment transaction, or chargeback of card-not-present transaction for payment via the Links or Requests for payments, or on other legal ground. We are entitled to withhold amounts to be paid to Client or debit amounts from Client's account, equal to the amounts subject to chargeback, reversal, refund, any claim related to Pre-authorisation transactions or e-Commerce or other claim, including the fee owed by Client and any fees and compensations paid to the Regulators, during the time of the procedure or later on, notwithstanding if the amounts have already been credited to Client's Account. Depending on the outcome of the claim against us or the Client, we are entitled to:

(a) In case of successful chargeback, reversal, refund or claim, to reimburse the funds to the Payer or cardholder (or Card Scheme) or other appropriate third party and charge Client for these amounts, including applicable fee, by deducting them from the amounts due by us to Client or by debiting Client Account. In such case, we shall be entitled to debit the e-money balance first in any currency and any account of Client opened with us, and then the Reserve, if there are no sufficient funds in the e-money balances. Alternatively:

(b) In case of chargeback, reversal, refund or claim, which have been decided in a non-appealable way as not successful, to release the withheld or blocked amounts to Client.

7.9.1. Client acknowledges that the validity of a chargeback, refund, reversal or claim will be determined by the relevant Card Scheme or other third-party payment service provider and we will have no discretion on the matter. We are not liable to Client in respect of any reimbursement to cardholder (or Card Scheme), their payment service provider or other appropriate third party because of a chargeback, refund, reversal or claim.

7.9.2. In case a cardholder escalates a chargeback or similar procedure before the Card Scheme, under the rules for arbitration procedure of the Card Scheme, we shall inform Client on this and shall cooperate with Client in such procedure as per the Regulations. All costs or fees incurred by us in such procedure, including the costs or fees, paid by cardholder, in case of loss of the procedure, shall be on account of Client.

7.9.3. Client acknowledges and accepts that we may restrict or suspend the use of the Service and/or terminate this Agreement immediately and without advance notice in the event that the levels of chargeback, refund, reversal or claims connected with Client website or offers are, in our sole opinion, excessive.

7.9.4. In case we have reasonable doubts or we receive information from Card Schemes or other Regulators for payments with stolen cards, false cards, or unauthorised payments with cards or other irregularities in connection with Client's Website, we have the right to withhold or block all due amounts to the Client, including in Client Account and to start an investigation without prior notice to Client. Client is obliged to cooperate us and present us all requested information related to the alleged fraud or unauthorised payments. We have to complete our internal investigation within a reasonable period and have to inform Client on the outcome. Client acknowledges and agrees that in some cases of violations we may be obliged to report Client websites to registers of Card Schemes or other Regulators and terminate the Service for the Client, for which we shall not be liable.

7.10. Other rules for use of the Service:

7.10.1. Without prejudice to the above, Client agrees and acknowledges that the reporting and payment of any applicable taxes arising from use of the Service and which by law are obligations of Client is Client's exclusive responsibility and liability. Client hereby agrees to comply with any and all applicable tax laws.

7.10.2. We may at our discretion block the possibility for specific types of payment transactions in principle or in countries or in some cases, in order to comply with risk and compliance requirements. We may, at our reasonable discretion (for example, for fraud, risk and compliance reasons) impose limits on the amount of money Client can withdraw, transfer, receive or fund for a

certain period of time or for the whole period of use of Service.

7.10.3. Client acknowledges and agrees that: (a) The sales of Goods and Services are transactions between the merchant and Client and not with us, unless we are expressly designated as a Seller (Merchant) in the transaction (for example, purchase of other prepaid cards, such as GIFTCARD or other). We are not liable for the performance of obligation of Merchants.

7.10.4. We shall provide to Client information on balance/s, IBAN numbers and other unique account identifiers, information on acquired and settled transactions, information of payment transactions, history of transactions, status of account, status of other payment instruments, notifications to Client and other important information via email to Client's registered email or via the Online Profile, via SMS or push or similar notification to the registered mobile phone of Client or via the Website for the Service.

7.10.5. Client will be able to view Client transactions free of charge in Client's account transaction history, which is updated regularly, and Client agrees not to receive paper statements. Upon Client request we may, upon our discretion, provide Client with additional statements, paper or otherwise, of the transactions but in this case, we may charge Client a reasonable administrative fee as defined in the Tariff. We may charge Client a fee for other information services, different from the standard information services, provided via the Service or additional services provided by us, as provided in the Tariff.

7.10.6. In case Client wishes to use an alternative method for two-factor authentication and receipt of one-time password, as may be required by the Service, Client has to select this option from Client's Online Profile. Transactions, operations and activities confirmed with the one-time password, generated via each of the available two-factor authentication methods, supported for the Service, will be considered as valid and binding on the Client.

8. Reserve, Hold/Pending and other Protective Actions:

8.1. We shall be entitled to withhold and keep as a Reserve acquired Client's funds for securing the performance of Client's obligations to us under this Agreement and to the Third-party Acquirer under the Temporary Merchant Agreement with iCARD, and the applicable laws and Regulations.

The Reserve shall be a percentage ("Reserve Percentage") of the amount of the processed card transaction that is settled to the account of the Merchant. The Reserve may be applied by us to certain or to all types of card transactions, which may include the myPOS Online Acceptance Features, card present, but not only. The Reserve Percentage that is applied to processed card transactions may vary between 10% and 30 % or even higher percentage on the basis of risk factors related to the Client. We reserve our right to determine lower or higher Reserve Percentage at any time as specified below.

The Reserve may be seen in the Online Profile. If the amount of the Reserve is depleted or diminished for some reasons, we shall be entitled to withhold amounts from all types of credit transactions to the account of the Client, to replenish the amount of the Reserve.

The amounts withheld by us as a Reserve will be kept by us for a period up to 6 (six) months after authorisation of the card transaction which is processed or for a longer period if this is necessary for the protection of our legal interests. All amounts kept by us as a Reserve will be displayed in the Online Profile. Such amounts do not represent electronic money and the client may not use, redeem or buy back them until the reserve period elapses and the amounts are credited to Client's balance of e-money. The funds will be withheld with operation Withhold Reserve and shall be released with operation Release Reserve. The release of the respective reserved amounts shall be performed once per day or at other time intervals, at the end of the Business Day.

8.2. We shall determine the Reserve amount or percentage depending on the level of risk of Client, geographical locations, type of business and other factors. We shall regularly check the percentage and amount retained under the Reserve percentage. If in our sole discretion the amount of the retention exceeds a reasonable amount covering the risks, we may:

8.2.1. release the excess amount and cease to keep it as Reserved and credit it to Client account or

8.2.2. lower the Reserve Percentage.

8.3. If in our discretion, or in discretion of third-party Acquirer, there may be a high or higher level of risk associated with Client, the account of Client or usage of the Service and the amount of the Reserve or retention does not correspond to the risks, we shall be entitled to unilaterally:

8.3.1. increase the Reserve Percentage without prior notice, and/or

8.3.2. prolong the period for which the sums will be kept as Reserved for more than 1 (one year), and/or

8.3.3. request a bank guarantee or a corporate guarantee or another additional security from the Client, and if not provided, terminate the Service, without liability or compensation for damages.

8.4. If upon our discretion there may be a high level of risk associated with Client account or usage of the Service or Client has breached or is breaching the Agreement, or the Merchant Agreement with iCARD, or any laws or Regulations, in addition to the Reserve, we shall also be entitled, in our sole discretion, to place a Hold on the funds held by Client as Balance of e-money or to withdraw and keep funds from authorised transactions, which have not been yet credited to Client's account for e-money. In relation to the Service, this may include (without limitation) an unusual level of customer refunds, chargebacks or other similar. We are entitled to withhold amounts for a period of time, which is reasonably necessary to assess our damages. Amounts which are placed on hold or withdrawn by us for the above reasons will be shown as "Hold/Pending" in Client's account only for information purposes and only if allowed by the law. Such amounts do not represent electronic money and the client may not use, redeem or buy back them until the reason for hold/withdrawal is rectified and the amounts are credited to Client's account for e-money.

8.5. If upon our discretion there may be a high level of risk associated with Client account or usage of the Service or Client has breached or is breaching the Agreement, or the Merchant Agreement with iCARD, or any laws or Regulations, we are entitled to take other reasonable actions, which we determine are necessary to protect against the risks associated with Client or Client's account, including, but not limited to requesting additional collateral from Client, such as a letter of credit or a personal guarantee, imposing higher limits on the amounts accepted via the Service, or limiting the functionality or number of devices or cards or other parts of the Services, including blocking parts or whole of the Services, such as myPOS Account, blocking the access to Client's account or blocking only the possibility for payment orders and use/redemption of e-money or other. We may contact the customers of the Client, on Client's behalf, in the event that we are investigating potential fraud. If we have blocked/disabled myPOS Terminal for such reasons, Client is obliged to return to us or a person specified by us via post the blocked payment device, such as myPOS on account of Client. We may withhold money from Client until due performance of this obligation.

8.6. In order to determine the risk associated with Client's account or use of the Service, we may request at any time, and Client agrees to provide promptly any information or documents about Client or Client's business, use of the Service, use of the account or Card, operations or any other information about the Client. We shall reserve the right to reassess Client's eligibility for any account, product or Service if Client's business is materially different from the information provided by Client upon subscription for the Service.

8.7. Client liability is not limited to the amount of the Reserve or Hold/pending amounts. We are entitled to debit from the amounts withheld or from the balance of e-money of Client amounts, for which we have been assessed by Regulators or Card Schemes or damages suffered by us or by the Third-party Acquirer, including but not limited reputational damages, in relation to Client or non-compliance of Client with this Agreement, or with the Merchant Agreement with iCARD, or with the laws or Regulations. We shall inform Client on such debit operations in reasonable time via e-mail and without delay, unless it is unlawful to inform Client or it is against our legal interests.

9. Payment instruments security features. Security measures and Safety Requirements. SCA:

9.1. We have provided to Client personalised security features which comply with the principles of strong customer authentication for using all payment instruments, included in the Service, such as, but not limited to, password, OTP (one-time passcodes) received via SMS or push or similar notification to the registered mobile phone, or generated via special Mobile applications for access to the Online Profile and making a payment order, password for Mobile Application and others, which are necessary tools for preserving the security of the payment instruments of Client. Strong Customer Authentication methods may vary depending on Client's particular setup or available devices. In case Client suspects that someone has knowledge on Client personalised security features, Client should inform us immediately. In case the Card is lost or stolen or in case Client suspects that someone has knowledge on the personalised security features, please follow the instructions in 18.6.1.

9.2. Client agrees to use Client's credentials, such as username and password and other personalised security features for Client's payment instruments only in accordance with this Agreement and with the law. Client must not provide and must not allow disclosure of the personalised security features to a third party (other from authorised cardholders), because even in this case Card or payment instrument can be comprised and result in unauthorised transactions, for which Client is fully liable. The terms of the security features of the myPOS Card are detailed in the Legal Agreement for myPOS Service.

9.3. Since Client is using the Service in a business capacity, Client agrees that:

9.3.1. All employees, agents, representatives and others having access to Client Credentials or personalised security characteristics of payment instrument/s of Client, will be considered as properly authorised to use Client account and/or make any payment orders via all payment instruments and perform all actions to which Client is entitled and will legally bind the Client, business, partnership or other legal entity concerned;

9.3.2. Client or a person explicitly authorised by Client has the right to authorise users of Business account of Client and/or payment instruments related to it, whose rights for ordering payment transactions, reversal, receiving of information, authorizing or removal of other users and other rights are defined by us on the website of the Service or in the Online Profile and can be additionally individualised by Client or a person explicitly authorised by Client according to the functionalities of the Service.

9.3.3. Each payment order from authorised user will be considered as approved by Client and irrevocable per the rules on Receipt of Payment Order and Irrevocability above. In case Client wishes to limit rights for access to the Business account of certain authorised users, the legal representative of Client or a person explicitly authorised by Client per our requirements, can perform this operation via the Online Profile or send to us a request duly signed by Client via Client's registered e-mail.

9.4. Client acknowledges and agrees that all Cards linked to Client's account are providing access to the e-money in Client's account and Client shall be liable for all transactions and charges arising of the use of Cards, associated with Client's account.

9.5. If Client believes that Client's myPOS Account or other payment instruments such as payment cards linked to myPOS Account have been used in an unauthorised manner or in case of unauthorised transactions, Client has to contact us without undue delay. Client agrees to notify us via Client's registered e-mail or via the Contact Centre, immediately and without delay. Client also agrees to notify us without undue delay and in the same manner of any other breach of security regarding the Service of which Client has knowledge. Client should follow the instructions in 18.6.1 of this Agreement.

9.6. We may suspend the use of the Service in part or wholly, including blocking the E-money Account or the Card where we or Client may suspect that the security may have been compromised or that unauthorised or fraudulent use has taken place. We shall inform Client in advance via the channels defined in 18.2 of this Agreement or, if that is not possible, immediately after, of the suspension of the use of the Service, specifying the reasons for the suspension, unless such provision of information would compromise reasonable security measures or be otherwise unlawful. We shall provide the Service or replacement credentials or personalised security characteristics to Client, as soon as practicable after the reasons for the suspension cease to exist and on condition that Client has performed all obligations towards us.

9.7. More information on security measures, which Client must and is able to take, is provided on web page for the Service or in the Online Profile.

10. Protection of Client personal information and Financial Secrecy:

10.1. We are authorised to store and process Client's data, including personal data in terms of the applicable legislation on data protection (and any amendment thereof), to the extent that this is necessary for the appropriate conduct of the business relations and conforms to the applicable statutory provisions. 12. Fees. Currencies and Currency Conversion Fees

Fees for the Services:

12.1. We will display in Client's Online Profile the Tariff setting out the fees for the services. The fees will be debited by us directly from the Balance of the Client.

12.2. When we process an Acquiring Services transaction, we are required to pay a fee, known as Interchange (as defined here: link to Q&A), which is determined by the relevant Card Scheme (e.g. Mastercard or Visa) and is paid to Client's customer's card issuer. Additionally, we also pay fees to the Card Scheme whose brand is displayed on the card, and to the Card Scheme who routes the transaction between us and the card issuer. Collectively, these fees are known as Scheme Fees (as defined here: link to Q&A). Interchange, Scheme Fees and the other external costs incurred by us when processing a transaction are not charged separately to Client (we recover these costs as part of the fees for Acquiring Services). Information about the Interchange and Scheme Fees applicable to different categories and brands of payment cards can be found here [insert link to IC/SF schedule]. Prior to and on signing up for the Service, Client acknowledges and confirms that Client has been offered and has agreed to be charged with fees that have been presented in the Tariff in a fully unblended format. For simplicity, however, where fees for certain line items are the same, we will group such items together in Client's billing. Further, by accepting this agreement, Client hereby requests in writing and we agree that any future changes to the Tariff may include rates that are blended across card brands, categories and/or interchange groups. Additionally, Client agrees that we may provide information on individual card-based transactions in an aggregated format.

12.3. The fees may be changed unilaterally with 2-month notice sent to Client, in accordance with clause 17. The fees for the Acquiring Services, which depend in part on the Interchange and Scheme Fees applicable, may be changed by us with shorter notice in case of Regulatory Change, in accordance with clause 17. Updates in the Tariff will be indicated on the Website for the Services and/or in Client's Online Profile. In addition to the fees, Client agrees to pay to us the extraordinary costs for any tests, registration, accreditation, web crawling, special API developments or similar unusual or unpredicted costs incurred by us. We may also charge Client with administrative fees for providing paper statements, if requested by Client, or other information, which is different from the information provided in the Online Profile.

12.4. Currency conversion: If transaction involves a currency conversion, it will be completed at a foreign exchange rate determined by us plus a Currency exchange fee expressed as a certain percentage above the exchange rate and if such is explicitly specified in the Tariff. Foreign exchange rate is adjusted regularly based on market conditions (the wholesale exchange rate at which we obtain foreign currency). The exchange rate could be viewed by Client in the Online Profile. The Currency exchange fee, if such is explicitly specified in the Tariff, is retained by us and will be applied whenever we perform a currency conversion according to Client's payment instruction. Client may calculate via Online Profile what foreign exchange rate apply for a certain transaction, involving currency exchange, as well as what is the amount of the Currency exchange fee if there is such explicitly specified as per Tariff.

12.5. Processing currency and settlement currency: Processing currency is the currency in which Client will charge its customers. The transactions will be processed in EUR, or other currency, supported by us and explicitly agreed on with Client. The settlement currency is the currency in which we shall credit Client's Balance or bank account with amounts due by us to the Client. The amounts due from us to Client shall be settled in EUR, or other currency, supported by us and explicitly agreed on with Client. Processing and settlement currencies shall be chosen by Client upon subscription or activation of the Service and later may be changed upon request by Client to us and upon the condition that it is possible for us to do the change. In case the processing and settlement currencies differ, we shall apply our currency exchange rate and that of our correspondent banks for the date of the settlement to Client.

12.6. Where a currency conversion is offered at the point of sale by the merchant, not by us, and Client chooses to authorise the payment transaction with myPOS Card on the basis of the Merchant's exchange rate and charges, we have no liability to Client for that currency conversion. Where Client's payment for e-money is funded by a credit or debit card of Client ("Funding Card") and involves a currency conversion Client agrees and authorises us to convert the currency instead of issuer of the

Funding Card at a rate which will be shown to the client.

12.7. Client acknowledges and agrees that we are authorised to satisfy immediately as they become due any obligations of Client towards us under this Agreement or other, by debiting or withdrawing directly funds from Client Account, or from Reserve and/or Hold/Pending amounts provided by Client or kept by us, or any outstanding sums owed to Client. We shall inform Client on the ground, amount and value date of such withdrawals.

12.8. In case of delay of Client to pay a due obligation to us, Client will owe us a penalty for delay in the amount of 0.05% per day of the delayed amount, until the due payment is paid.

12.9. In circumstances where the balance in Client's account in certain currency is not enough to cover the amount of a certain transaction or obligation of Client, Client agrees and authorises us to debit the necessary amount from available balance in Client's account held in other currency, applying our foreign exchange rate for the date of the conversion, notified in the Online Profile or Website for the Service. The priority order for conversion of currencies in Client's account is given after System's default order or may be set by Client in which case we are obliged to keep the manually determined order.

12.10. In case Client receives e-money in Currency, supported by us, different from the currency of Client's account, Client agrees that we shall issue e-money in the received currency, where the total balance of e-money held by Client shall be shown in the Principal Currency of Client's account at the foreign exchange rate, applied by us at the date of check of balance.

12.11. Client agrees and understands that the financial institution that provides the bank account to Client, used for funding transactions via bank transfer, may charge Client a fee and/or currency conversion fee in connection with the funding transaction. Client should consult the Terms and Conditions governing Client's bank account for more information about any such fees. We are not liable for taxes, fees or costs imposed by third parties.

Other Fees:

12.12. In cases where a Client's Account is blocked or closed by us due to any breach by Client of this Agreement or any applicable laws or regulations or for risk or security reasons and/or Client has not provided us with the requested information, or has provided false or insufficient information we are entitled to start charging a monthly No-cooperation fee in the amount specified in the Tariff applicable for the Client, until Client performs its obligations as instructed. The No-cooperation fee shall start to be applied after a 2-month prior notification to such Client. The No-cooperation fee will be deducted from the balance of the Client, or if there is not enough balance, the No-cooperation fee will be deducted by us from the Reserve. This No-cooperation Fee shall be charged until the status of Client is rectified according to our internal risk and compliance rules or Client redeems the outstanding balance in compliance with this Agreement and our internal procedures. Otherwise, the client will be charged with a No-cooperation fee until the depletion of the remaining balance, which will be held in a specially designed Holding account (see below in section 14).
