Activate your myPOS package

Before you start the activation, you need:

- Your myPOS device connected to Internet via Bluetooth, Wi-Fi or GPRS
- Internet browser to access mypos.com
- Mobile phone (able to receive SMS)

Getting started

myPOS Data Card is absolutely FREE for you and we will provide you with one for each of your myPOS terminals.We got your connectivity covered!

1. Go to mypos.com and login to your myPOS account.

2. Go to menu **Devices → Activate your device.** Choose your device settings and activation code will be displayed in your myPOS account.

3. After entering the generated Activation Code, your device is ready to use. Click "I am ready with the activation" and you are all set!

* For terminals in slave mode or unattended devices, depending on the integration, it might be necessary to initiate a Check connection on the device. This will call up the screen where you'd enter the activation code. You can do it via the Settings menu →Check connection.

4. Optional - Activate your free myPOS prepaid Business card and get instant access to your money.

Successful activation

Congratulations! Your myPOS terminal is activated and ready for use. You can access your e-Money Account at mypos.com or from the myPOS app available for Android and iOS. For more information or assistance, please visit mypos.com
